Waterproof circle

Precision silicone pad, solid epoxy resin sealing, multiple waterproof design, to ensure having a good waterproof effect in any cases.
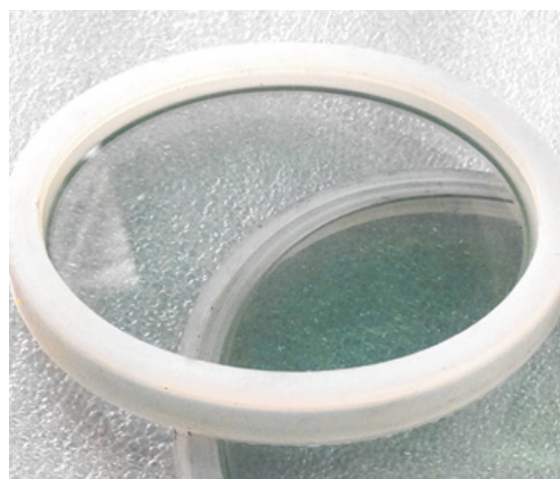

Tempered glass

Thickened tempered glass, designed and manufactured based on optical principles, nearly 100% light transmittance, explosion-proof, impact resistance, abrasion resistance, and led chip protection.

The radiator

Adopting the integration of aluminum radiator and thicken radiator, sufficient material to use, beautiful appearance, super performance for conductivity, perfect solution for the heat-dispersing of lamp body, keeping a very long lifespan for the light

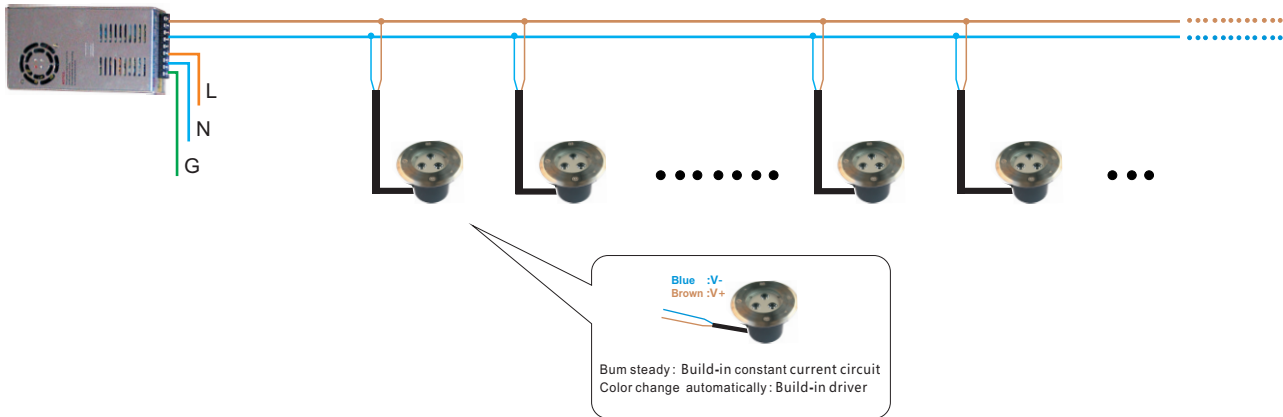

Tempered glass

Adopting high quality rolling border waterproof circle to design the wire entrance (PG11 nickel-plate brass), pour glue for inner head, achieving the multiple waterproof effect, protecting the light from being oxidized, being immune of outer water entering, it belongs to the most advanced PG head of Ip68.
